## MAY TAKE THEM OUT

Telephone Subscribers' Threats.

COMPLAIN OF BAD SERVICE

Many Housewives in a Movement To Have Their 'Phones Removed.

Will the troubles of the telephone company never cease? Complaints, day in and day out, pour into the office of Manager Cassidy. There is but one word with which Mr. Cassidy can answer angry patrons and subscribers and that is "Wait!"

For nearly a year Manager Cassidy has had enough coals of fire heaped upon his head to shrivel an ordinary man's brain. The manager, however, has gone about his duties unabashed and uncomplaining, endeavoring to turn into a perfect system of 'phoning, an old and very unsatisfactory one, and this without dispossessing any subscriber of the use of his 'phone.

In November of last year, ten months ago, the new switchboard that was to revolutionize telephoning in Honolulu, was set up in the new operating office, and then the company had to wait for the expert whom the switchboard manufacturers had promised to send. A delay of a couple of months was thus occasioned. When the expert commenced his work it was found that all the materials were not here. The work of changing the old 'phones into those on the new switchboard went on apace, until interrupted by the visitation of plague, and then more angry subscribers began to send in their complaints.

Yesterday a movement was on foot among the subscribers, many housewives, to inform Manager Cassidy that they would remove their 'phones unless he gave them better service on the operating table and removed the noise occasioned by induction. Several business houses were visited by those interested in the movement to have them place their names on the lists. Some signed and some did not. The business man must have a 'phone in his office whether it is a bad one or a good one.

An advertiser representative asked Manager Cassidy whether he had any intimation that such a threat was to be put into effect. He replied that he had not heard of it. He was sorry that such a movement was contemplated. He stated that the expert from San Francisco, Mr. Corcoran, was at that moment busily engaged in correcting abuses in the wires as they ranged into the new switchboard.

Mr. Corcoran said that the main difficulty in trying to give the public a satisfactory service at the present time was the fact that there were two systems still in vogue, each diametrically different from the other from a scientific point of view.

The old system was the ground wire class, using but a single wire. This wire in running parallel with wires of an electric light company caught the induction from the live electric wire, and as a result the current ran entirely through it and into the ground where the wire ended. At the present time in connecting numbers from the new to the old switchboard, a cross circuit was occasioned which made telephoning difficult. When the new system is complete there will be two wires for each 'phone, making a "loop" as the electricians term it. While running parallel with the electric wire, one of the wires will take up the electric current to carry it along. The second parallel wire with its current running in the opposite direction to the first would counteract the influence of the electricity from the electric light wire—or in other words would stop it, and thus obviate the foreign noises from the telephone system.

The old 'phone Mr. Corcoran expects to have transferred in about two months and the old switchboard con-

signed to the attic. He will remain until the lines are in perfect order. He says there will be no difficulty whatever when the old single lines are taken out.

Another difficulty has been in the operators. All are green at the business and none are of the class generally selected from in the large cities. It will take time, says Manager Cassidy, to train them properly.

DON'T NEGLECT

A Common Case of Piles—It may Lead to Serious Results. (From the Sydney Herald.)

When people generally understand that all such fatal diseases as fistula, ulcer of the rectum, fissure, etc., almost invariably begin in a simple case of piles, they will learn the wisdom of taking prompt treatment for the first appearance of trouble in this quarter. Doan's Ointment will certainly cure every form of piles—itching, bleeding, protruding, or blind piles—and hundreds of lives have been saved by using this cheap, effective remedy right at the start, because at such a time a single pot will effect a cure, while in the old chronic, deep-seated cases, several pots are sometimes necessary before a lasting cure is effected. Here is a case:

Mr. William Gilliver, of the well-known firm of Gilliver & Curtis, railway and general contractors, and whose private address is "Avoca," Bankstown, has written the following unsolicited letter, which we herewith publish in full:

Messrs. Foster-McClellan Co., 76 Pitt St., Sydney, N. S. W., February 14, 1899.

Dear Sirs:—In justice to you and suffering humanity I write to say that I suffered from itching piles for 22 years. I tried many doctors and pretty well all kinds of patent medicines, but got relief for a short time only. Seeing your Ointment advertised I bought a pot and did not use more than one-half of it, not six months ago, and I am perfectly cured. You may use this as you wish.

Yours gratefully, WILLIAM GILLIVER.

It cannot be repeated too often that Doan's Ointment will cure itching piles. IT WILL CURE THEM ABSOLUTELY. But do not take the manufacturer's word for this; ask or write Mr. Gilliver; he knows, for it cured him, and he lives in Bankstown, a suburb 12 miles from Sydney. Is not that the best possible kind of proof? Could there be better?

Doan's Ointment is sold by all dealers at 50 cents per box or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, agents for the Hawaiian Islands.

**REGISTER TODAY.**

ATTENDANCE IN SCHOOL.

Reports Show Large Increase in Many Buildings.

The attendance in all the schools is increasing largely as the weeks go by. At Kaahumanu school yesterday the attendance was 431, an increase of 24 over last week. At Kalulani school the attendance was yesterday 495, which is also a large increase over last week.

These are the two largest schools in the city, and they have each accommodations for 540 pupils so there is little danger of their becoming overcrowded, but in the smaller schools there has been much difficulty already in getting room for all who have applied for admission and many pupils have had to be shifted from one school to another so that accommodations might be found for all that wished to attend.

CAME NEAR DYING.

"For three days and nights I suffered as my untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines, but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Penon, Smith & Co., Ltd., wholesale agents.

**REGISTER TODAY WITHOUT FAIL.**

**REPUBLICANISM MEANS  
A FULL DINNER PAIL**

CERTAINLY one cannot be happy if hungry. Rich and poor alike must eat. Wage-earners—those who labor with their hands for daily bread or depend on their employers for money to pay for living.

If not one employer, then another. Now the employer depends entirely on prosperity to run his business. If times are hard and business is dull, he lays off workmen or stops his machinery altogether. He cannot pay men wages unless he is selling his product or others are paying him for the job he does.

For two score years Republicanism has meant, and three does mean, prosperity. The fact that the Republican party is today in power and in charge of the machinery of the government of our country is the reason and the only reason why we are getting all the work we want.

No man in Hawaii who desires to work but can get all he is able to do. If we want to keep up this era of prosperity we must keep the Republican party in charge of the Government. Hawaii can do her share by electing a Republican Delegate to Congress and electing Republican Senators and Representatives to our Legislature.

Then the dinner pails and the pot tins will be full.
